## Health Care Financing Program Statistics

The Health Care Financing Administration was established to combine health financing and quality assurance programs into a single agency. HCFA is responsible for the Medicare program, Federal participation in the Medicaid program, the Professional Standards Review Organization program, and a variety of other health care quality assurance programs.

The mission of the Health Care Financing Administration is to promote the timely delivery of appropriate, quality health care to its beneficiaries—approximately 47 million of the nation's aged, disabled, and poor. The Agency must also ensure that program beneficiaries are aware of the services for which they are eligible, that those services are accessible and of high quality, and that Agency policies and actions promote efficiency and quality within the total health care delivery system.

HCFA's Office of Research, Demonstrations, and Statistics (ORDS) conducts studies and projects that demonstrate and evaluate optional reimbursement, coverage, eligibility, and management alternatives to the present Federal programs. ORDS also assesses the impact of HCFA programs on health care costs, program expenditures, beneficiary access to services, health care providers, and the health care industry. In addition, ORDS monitors national health care expenditures and prices and provides actuarial analyses on the costs of current HCFA programs as well as the impact of possible legislative or administrative changes in the programs.

Medicaid **Program Statistics** are published periodically by the Health Care Financing Administration's Office of Research, Demonstrations, and Statistics. They include six specific kinds of publications: Preliminary National Monthly Medicaid Statistics, National Monthly Medicaid Statistics, Preliminary National Annual Medicaid Statistics, National Annual Medicaid Statistics, National Quarterly Medicaid Sterilization Statistics and National Quarterly Abortion Statistics.

The Monthly Statistical Report on Medical Care is submitted to HCFA by each Medicaid jurisdiction at the end of each month and reports data for the previous month. In an effort to make these data available in a timely manner, the reports are tabulated and published as Preliminary National Monthly Medicaid Statistics. Final edited and corrected monthly data are published as National Monthly Medicaid Statistics. To make annual data available as soon as possible, the 12 monthly reports for a fiscal year are tabulated and published as Preliminary National Annual Medicaid Statistics. The annual reports are then compiled and a more detailed publication, National Annual Medicaid Statistics, is published.

Two additional quarterly reports on sterilization are submitted by the States. These data are published quarterly as National Quarterly Medicaid Sterilization and National Quarterly Medicaid Abortion Statistics.

## Overview

This publication is a preliminary monthly report containing data on medical assistance payments and recipients of services under Title XIX of the Social Security Act (Medicaid). Medicaid is an assistance program designed to provide medical assistance to specified groups of needy individuals. For statistical purposes, these needy individuals are classified into two main groups according to their maintenance assistance status: (1) those who receive cash assistance for their basic necessities under public assistance programs such as Aid to Families With Dependent Children and Supplemental Security Income; and (2) those who do not receive cash assistance even though some may, in fact, be eligible. There are four basic groups eligible for medical assistance: those who are (1) age 65 and over; (2) blind; (3) permanently and totally disabled; and (4) members of families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as "Other Title XIX" recipients in the accompanying tables. Also, "essential persons" (usually spouses) may also be eligible for medical care. For cash assistance recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

## Sources of the Data

Summary information was accumulated from the *unedited* monthly statistical reports submitted by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Data shown are for only those States that have reported by the publication deadline and national totals do not contain estimates for missing States. Complete fiscal monthly data will be available in the Program Statistics Series: *National Monthly Medicaid Statistics* in the near future.

## Annotations

1. Arizona does not have a Title XIX program.
2. Guam did not submit reports.
3. Florida did not submit information for Tables 2, 3, 4, 7, 8, 9, 12, 13, 14, and 15.
4. New York did not submit information for Tables 2, 3, 4, 5, and 7 thru 15.
5. Indiana and Minnesota did not submit information for Tables 5, 10, and 15.
6. South Carolina did not submit information for Tables 5 and 15.
7. Montana did not submit information for Table 10.
8. Maryland and New Jersey did not submit information for Table 15.
9. Alaska, California, Colorado, Rhode Island, and West Virginia did not submit information for Tables 12, 13, 14, and 15.
10. Wyoming did not submit information for Tables 11, 12, 13, 14, and 15.
